

## Teacher Online Environment Network

After successfully trialling the online Teacher Environment Network last year and receiving such positive feedback...

*ResourceSmart Schools Gippsland is happy to announce that the Teacher Online Environment Network will now be a regular feature each term in our ResourceSmart Schools calendar!*

For those who may not be aware, the Teacher Environment Network, which will run via the Adobe Connect\* web conferencing platform, will allow ResourceSmart teachers in the Gippsland region to engage with ResourceSmart facilitators and other ResourceSmart teachers across the network to:

- Meet, network and form partnerships with other ResourceSmart schools in the region
- Share your sustainability skills, knowledge and ideas with others and encourage them on their sustainability journey
- Ask questions and seek answers about the Resourcesmart program
- Receive professional development on environmental topics
- Network with and learn from specialists from other environmental sustainability agencies
- Provide ideas for, and feedback on, ResourceSmart School events run throughout Gippsland
- Much more!

### \* More about Adobe Connect

Adobe Connect is a web conferencing platform that is freely available for use in all Victorian schools. It's easy to start participating in web conferences. The only equipment you need is a computer with an internet connection and a headset to enable you to listen and participate. You also need to make sure you have the latest version of Adobe Flash Player. (If you have trouble downloading the latest version of Adobe Flash Player, please speak with your school's IT team.)

Meetings are entered by a unique URL (web address) that has been created by the host (Gippsland ResourceSmart Schools). The host will send out an email invite to the session containing the URL. When the meeting time arrives, click on the link in the email or enter the URL into your browser.
